DETAILED ACTION

1. Applicants' election, with traverse, of Group I (claims 1-20) in the communication filed 08 October 2004, is acknowledged. The traversal is on the ground(s) that examining all the groups would not impose search burden to the Office, but no specific explanation is provided. This is not found persuasive because as set forth in the previous Office action, examination of group II, which is drawn to nucleic acid would certainly involve additional search such as class 536, 23.1, etc. The requirement is still deemed proper and is therefore made FINAL.

Accordingly, claims 1-21 are currently pending, claims 1-20 are under consideration. Claim 21 is withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the communication filed 08 October 2004.

2. This application is in condition for allowance except for the following formal matters:

The specification is objected to because of the following reasons:

It contains an embedded hyperlink and/or other form or browser-executable code. Such code is present in the specification on page 48. Applicants are required to delete the embedded hyperlink and/or other form of browser-executable code on this page or in other sections of the specification. See MPEP ' 608.01.

It appears that trademark is used in this application, such as VISUAL BASICTM on page 43. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

3. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
